

0-3's Nursery

Summer Term 2017 Newsletter

We hope you had a fabulous Easter break and welcome back to the summer term.

We were very pleased with how many parents came last term to discuss their child's progress review with key-persons' and the six week settling in reviews for the children just starting nursery. We take pride at Moreland in working in close partnership with parents, as research shows that when parents are involved in their child's education in the early years this can improve

educational outcomes for children later on at school. I would also like to take the opportunity

Oral health sessions on Monday 8th May at Moreland Children's Centre between 1-3pm

to remind you that parents can also log onto the Tapestry app to view their child's weekly learning experiences at nursery. The staff appreciate any information you can give us about your child's interests at home. Please feel free to make comments and suggestions, so we can use this information to support planning for children's learning. You can also use the communication books to give any important information on a daily basis.

As we look forward to sunnier days, we would advise all parents to apply sun cream to children before they arrive at nursery. We can apply cream for fulltime children with written consent, and request that parents provide the cream for their child. Please also provide sun hats as we will be encouraging children to use them when they play in the garden.

'Chatterbox'

On the week beginning Monday 8th May, we will be taking part in a National event called 'Chatterbox'. The purpose of the event is to raise awareness about the importance of helping children to gain good

speaking and listening skills, as they are fundamental to children's educational attainment. We will be focussing on developing skill such as :

1. Building sentences and talking socially
2. Understanding what is said

3. Listening and attention

Staff will be carrying out one activity per day this week, to promote and develop the use of these skills through play based learning. We would be happy to welcome parents to come and take part in the sessions.

Please speak to key-person for more information.

Best wishes
*Rasheedah Giwa and
0-3's Team*
